

GETTING MORE FROM YOUR EMPLOYEES THROUGH EMPOWERMENT

Want to get the most from your workers? Want to get workers committed and taking ownership for the success of the organisation?

SKILLS AND ATTITUDINAL TRAINING ALONE ARE NOT ENOUGH. **CONCURRENTLY CREATING THE CORRECT ENVIRONMENT IS A MUST...**

The **secret** is in using **the keys of Empowerment!**

So How Do We Get:

Staff performing at a higher level

Departments performing at higher levels

The organization performing at a higher level

“Unless empowerment starts at the top, it is going nowhere”

Blanchard et al

STAFF ALREADY HAVE THE POWER!!

It's to tap into that well of power and *release* the potential.

Unlocking this potential **BEGINS** with applying the following three basic keys of empowerment:

- (i) ***Information Sharing*** – for building **Trust** and **Responsibility**
- (ii) ***Creating Autonomy within Boundaries*** – for promoting **Prompt Action** and **Flexibility**
- (iii) ***Developing Self-directed Teams*** – for moving Workers' Attitude from **'Have to'** to **'Want to'**

“Empowering is a journey consisting of a few simple steps and much persistence”
